

SIGNIFICANT EVENT NOTICE

Transfer to new Spaceship Super sub-plan of OneSuper

15 April 2024

This Significant Event Notice is issued by Diversa Trustees Limited (**we, Trustee**) (ABN 49 006 421 638) (RSE Licence Number L0000635, AFSL No 235153) as trustee of Spaceship Super, a sub-plan of the Tidswell Master Superannuation Plan (ABN 34 300 938 877) (**Fund**). The Promoter of Spaceship Super is Spaceship Capital Limited (ABN 67 621 011 649) (**Spaceship**).

Spaceship and the Trustee are passionate about delivering strong member outcomes for all Spaceship Super members. That's why, following a detailed due diligence process, the Trustee has decided to transfer members' benefits on 17 May 2024 to a new Spaceship Super sub-plan of OneSuper (ABN 43 905 581 638) (**OneSuper**) via a Successor Fund Transfer (**SFT**). Diversa Trustees Limited is the Trustee of OneSuper.

This notice will help you understand the changes and impact on your Spaceship Super account and includes important information on any actions you may need to take in the lead up to the transfer.

Your Spaceship Super account and your benefits will be automatically transferred on the SFT date of 17 May 2024. You will receive an exit letter from Spaceship Super as a sub-plan of the Tidswell Master Superannuation Plan, as well as a welcome letter from Spaceship Super as a sub-plan of OneSuper confirming that your benefits have been transferred.

We're excited about this change, which will bring benefits to members and lower overall fees, however during the **transfer period** there will be some limitations on the services available to members.

The transfer period will be from 5pm AEST on Friday, 10 May 2024 to open of business on Monday, 3 June 2024.

Your Spaceship Super benefits will remain invested and your account will continue to be subject to investment performance returns during the transfer period. There will be no changes made to your investment options' objectives, asset allocation, or how we invest your super.

How members will benefit

Once the SFT is complete, Spaceship Super members will enjoy immediate benefits such as reduced fees and use of BPAY for personal contributions.

Fees and costs

The fees and costs for Spaceship Super are changing after the transfer, with all members receiving a reduction in administration fees and costs. There will be an increase in investment fees and costs, however the administration fees and costs reductions are greater than these increases so you will be paying lower fees overall after the transfer.

We are also revising the method by which the percentage asset-based administration fee is applied to your account. Instead of being included in the unit price, you will now see a direct debit to your account on the 1st of each month, reflecting the applicable charge for the prior month. There will also be a reduction in the buy/sell spread for the GrowthX investment option.

The table below presents a summary of the changes:

	Current fee	New fee post-transfer	How and when paid
For the GrowthX investment option			
Administration fees and costs:	\$78 + 0.693% pa	\$78 + 0.570% pa (a reduction of 0.123% pa)	The dollar-based Administration fee component is deducted monthly from your account balance. The percentage-based Administration fee component is currently deducted in the calculation of unit prices daily, however will instead be deducted directly from your account post-SFT.
Investment fees and costs:	0.157% pa	0.237% pa (an increase of 0.080% pa)	The Investment fee is deducted from investment earnings and reflected in the unit price. This fee is not deducted directly from your account.
Total change:	N/A	A reduction of 0.043% pa	N/A
Example: Total fees if your balance was \$50,000 at the beginning of and throughout the year:	\$503.00 pa	\$481.50 pa	N/A
For the Global Index investment option			
Administration fees and costs:	\$78 + 0.577% pa	\$78 + 0.470% pa (a reduction of 0.107% pa)	The dollar-based Administration fee component is deducted monthly from your account balance. The percentage-based Administration fee component is currently deducted in the calculation of unit prices daily, however will instead be deducted directly from your account post-SFT.
Investment fee:	0.000% pa	0.080% pa (an increase of 0.080% pa)	The Investment fee is deducted from the investment returns of the underlying investments. This fee is not deducted directly from your account.
Total change:	N/A	A reduction of 0.027% pa	N/A
Example: Total fees if your balance was \$50,000 at the beginning of and throughout the year:	\$366.50 pa	\$353.00 pa	N/A

Note: The table above discloses fees that are charged to you. There may be other fees and costs included in the Product Disclosure Statements that do not impact your account but are required to be disclosed. Please note that certain activity fees may also be applicable; for more information, please refer to the 'Additional explanation of fees and costs' in the Reference Guide.

Buy/sell spread

As part of the SFT, we have been able to leverage improved services, thereby reducing transaction costs. These savings are being passed on to you in the form of a reduction in the estimated buy-sell spread¹ for the GrowthX investment option.

Investment Option	Current Buy/Sell Spread ¹	New post-SFT Buy/Sell Spread ¹
GrowthX	0.172%/0.171%	0.09%/0.09%
Global Index	0.08%/0.08%	0.08%/0.08%

¹ You won't see this fee as a direct charge to your account; it is deducted on a transactional basis every time units in an investment option are bought and sold and is reflected in the unit price. Buy/sell spreads may be varied at any time without prior notice and will be reviewed on a regular basis.
